

ROTARY CLUB OF STEVENAGE GRANGE

PRESS RELEASE FROM STEVENAGE GRANGE ROTARY CLUB 13 October 2004

Something's bubbling at Greenside School

Stevenage Grange Rotary Club, with assistance from District 1260, has just presented Greenside School with two new bubble tubes for their sensory room.

The interactive tubes enable the children to react to the movement and colour and provide much needed stimulation.

The tubes were officially presented to Dave Victor, Headteacher of Greenside School by Rotary President David Stewart last Monday and form part of Rotary's ongoing commitment to disabled children in the area.

Dave Victor said "Everyone at Greenside is delighted with the generous support that we have received from Stevenage Grange Rotary Club and Rotary District 1260. The new interactive bubble tubes are wonderful and the children really enjoy them."

"We are constantly seeking to develop the range and quality of specialist resources at the school; our main priority areas are developing outdoor play and recreational facilities and computer software and hardware. If anyone would like to know more about these projects, or the work of the school, they are welcome to contact me on 01438 315356."
